---

By writing, everyone can express what they think or feel by using a language either indirectly or directly. Besides, writing is one of the most important skill in the English language that students must master at school, while the tenth grade students of Madrasah Aliyah Negeri 3 Banyuwangi still had problems in writing, especially in writing Biography text, most of them were difficult to explore their ideas and to design their sentences. Besides they were also less vocabulary in writing Biography text. So this aim of research is to describe the process of Implementing Lee-Min Ho's lifestyle video to improve students' writing skills in writing Biography text at the tenth grade students of Madrasah Aliyah Negeri 3 Banyuwangi in the academic year 2019/2020.

This research method used Classroom Action Research as design, and this study consists of two cycles which each cycle consists of two meetings. In addition, this research implemented based on Classroom Action Research procedures, as follows: Preliminary study, planning, acting, observing and reflecting. And this classroom action research involved thirty-three students at eleventh grade students of social department 4 in Madrasah Aliyah Negeri 3 Banyuwangi as population. There were twenty five female students and eight male students. In addition, the researcher used a qualitative approach, there were data collection techniques used to collect data such as the interview, observation, and tests. And the researcher analyzes the data by using score rubric and microsoft excel as technique. There were several aspects of writing that student's increased in writing Biography texts such as (content, organization, discourse, syntax, vocabulary, and mechanics). Furthermore, Students were also more enthusiastic and enjoy being taught by implementing Lee Min Ho's lifestyle video.

According to analyzed data, it showed that there was improvement of students' scores in writing Biography text, from the preliminary study until the cycle II. By applying the score of criteria success (SKM) 73, 42 % of students passed from the score of criteria success (SKM) in preliminary study, and then it was improved in the cycle I, There were 76% of students passed from the score of criteria success (SKM). Finally, students got an improvement in the cycle II. 100 % of students passed from the score of criteria success (SKM). from these results the researcher concluded that implementing Lee-Min Ho's lifestyle video was been successful in increasing students' abilities in writing Biography texts. Therefore, the implementation of Lee-Min Ho's Lifestyle video to improve writing skill by following few steps such as: 1). The teacher introduces Lee-Min

Ho's lifestyle video model as the purpose of activity. 2). The teacher explains the step of Lee-Min Ho's lifestyle video model in writing Biography text. 3). Students are shownen to watch Lee-Min Ho's lifestyle sample from the video. 4). Students are divided in some groups to analyze Lee-Min Ho's Lifestyle. 5). The teacher asks students to collect information of Lee-Min Ho's Lifestyle video. 6). The teacher asks the student to create a Biography text based on the Lee-Min Ho's lifestyle video. 7). The activity is conducted and students make Biography text. 8). The teacher and collaborator gives positive feedback to make students interested and motivated in writing Biography text. 9). The teacher and collaborator evaluate the result of the activity.

## **CHAPTER I**

### **INTRODUCTION**

This chapter presents an Introduction such as: The Background of study, The Formulation of research problem, The scope of the study, The purpose of the study, The Significance of the study, The previous study, and the definition of key terms.

#### **A. Background of the study**

Language has a big role in our daily life. All people apply a language to explore their ideas, express their thought and share their opinion. Nowadays the English language becomes the global language which considered as a foreign language in Indonesia. Besides, the English language has a significant in some aspects, such as: to get an education access in overseas countries, to have an international business, and to join in politics (Asiti, 2012:1). Furthermore, The existence of the English language is considered in Indonesia education. According to Sari (2015: 1), English major becomes a compulsory major in English teaching-learning at school. Besides, as mentioned curriculum 2013, English teaching-learning is implemented at survival level till university.

The English language consists of several skills such as: Listening, Speaking, Reading, and Writing. From those skills, writing skill is very important and useful for everyone in the world, According to Hayati (2017:10) “If you want to write, it is as simple as that. Writing is a skill, like driving or word processing that you can master with hard work. If you believe this, you are ready to learn how to become a component writer”.

Allah SWT said that in Al Qur'an in Al Alaqa Verse 4-5

الَّذِي عَلِمَ بِالْقُلُوبِ (٤) عَلِمَ الْإِنْسَانَ مَالَمْ يَعْلَمْ (٥)

The meaning is: "Who was taught (the writing) by the pen. He has taught man that which he knows not" (Q.S Al-Alaq:4-5)(Hayati,2017:10)

Allah said in the Qur'an in Al-Qalam verse 1:

نَ وَالْقَلْمَ وَمَا يَسْطُرُونَ (١)

The meaning "Nun, by the pen and what they write"(Q.S Al-Qalam:1) (Hayati, 2017:10)

However, among four skills in the English language, writing is considered as the most bothersome a skill. "Writing is a language skill that is used to communicate indirectly" (Fitriani, Sutama and Astika, 2018:3) According to their statement above, writing is considered a skill which can not orally directly. Otherwise, it is different from the other skills. Zulfanita (2019:1) argues that, by writing, student can transfer their information, thought, and an idea. Besides, everyone should be apprehending how to create good writing so do students, it is supported by the concept of Lestyaningsih (2017:1) writing skills is advisable to be mastered by all people. However, "Writing takes the most students' attention" (Asiti, 2012:1) it means, students need much time to create it. In the result, they can produce a correct writing. However, To produce correct writing, we have to understand all aspects of writing, such as vocabulary, grammar, sentences and, etc. Besides, Virtually writing is hard to create, According to Ahzurah (2018:2) writing is complex, on the other hand, as the student should know how to write

correctly. It is also supported by Prasetya and Komarudin (2017:25) students of Senior high school should learn English major especially in writing. The motive why they have to write is because writing is one of productive skill which can do for every student, it is also mentioned by Hayati (2017:5) writing is one of productive skill which can do all people.

According to the complexity of the writing skills above, teachers should have suitable media. Furthermore, to achieve the best result in teaching writing, the teacher should understand what the most appropriate media is. It is strengthened by Zuhra (2018:2) the way to solve the problem in the classroom is by using the media. In short, the media can solve a problem dealing with writing. “To make an enjoyable learning, teachers have to choose the appropriate and interesting media for teaching-learning process such as games, pictures, card songs, video, stories, etc.” (Racmah, 2011:3) In this line of that statement, there are various media which make students are better in learning English major especially in writing skill. In this research, the researcher focuses more on using video as the most appropriate media. Because of writing, the researcher uses Lee-Min Ho’s lifestyle as a content of video to improve students’ writing skills in writing Biography text. By the length of duration 04:28, the video can be downloaded on YouTube, here is the link of the source (<https://www.youtube.com/watch?v=ZkNTBq42kN4> Accessed on 15<sup>th</sup> April 2020 at 10.10 Am) in short, to approach teaching in writing Biography text, video can be considered as one of the media in teaching writing.

Madrasah Aliyah Negeri 3 Banyuwangi is one of Senior high school which located in Srono district exactly Banyuwangi Regency. The researcher has the intention to conduct research studies in this school because of some reasons, The first, this school is a place where the researcher had PPL before, The second, According to the article which the researcher reads, It mentions that Madrasah Aliyah Negeri 3 Banyuwangi is the best accreditation in East Java Province (<https://radarbanyuwangi.jawapos.com/read/2018/02/27/52793/man3banyuwangi-akreditasi-terbaik-se-jatim&hl=ID#a.modalSearch> Accessed on 16<sup>th</sup> March 2020 at 3.22 Pm). The third, Madrasah Aliyah Negeri 3 Banyuwangi has good facilities, good staff and, students who support this research. In short, this school is very supportive to be conducted research studies.

Moreover, According to the researcher's observation when conducted the preliminary study, The researcher finds that the student still has problems in writing Biography text. The first, mostly they feel writing is hard, they have to deal with grammar, it is also known by their writing from their task, it shows that they are still low in grammar. Besides, They still have lack vocabulary. The second, students feel not only less vocabulary, but also lack an idea. They said that they feel confused to create new sentences in writing in Biography text. The cause is they do not find any idea on their mind. Furthermore, the effect of the problem above, makes it difficult to organize sentences. In short, they need an idea to create a sentence to improve their skill in writing Biography text. The third, when the students write down their thought they feel hopeless and not confident. Mostly, they are worried when they are going to write a sentence in a paragraph. In short, students need much motivation and practice in writing

Biography text. The fourth, students do not enjoy when they are getting the researcher's explanation by using traditional teaching in the first meeting in preliminary study. When the researcher teaches them by using traditional teaching, mostly they do not pay much attention to the researcher's presentation. The fifth is students feel hard to create Biography text because they are seldom practice writing. Moreover, those problems begot the student to be able not to achieve the criteria maximum of the score (SKM). Those problems school conditions above were proven by observation by the researcher when the researcher had had preliminary study. It is also proved by checking the score in the researcher's PPL Finding. It shows that there are many students get under criteria maximum of the score, whereas the minimal completeness criteria of success (SKM) is 73, in contradiction, there is student who get 48, it means students are not reached yet, those happens were proven when the researcher conducts a preliminary study. Due to the problems above, The most appropriate media must be implemented by teachers. And video is one of the media which expected to solve those students' problems in writing Biography text. It is supported by the concept of Lestyaningsih (2017:3) video that can be implemented to transfer material which related to the topic is. It is also supported by Fatmawati (2017:2). "There is reason to believe that video would be helpful" based on those concepts, video is believed that it is effective to transfer knowledge when teaching-learning in the classroom.

So that's why the researcher chooses Lee-Min Ho's lifestyle video as media which gives benefit for students who learn to write in Biography text. The reason is by applying Lee-Min Ho's lifestyle, it can provoke students to write Biography text more intentionally. There are some reason by implementing it, the first, students can get information of Biography from the point sentence of Lee-Min Ho's lifestyle which appears on videos, with the result that students can create an idea based on valid information, the second students are expected to be interested with the picture and the song that shows in Lee-Min Ho's lifestyle video, the third they can be more eager to learn to write Biography text because of nowadays many teenagers are admired by Lee-Min ho. Korean actor and actress is the proclivity of interest in the teenager cycle. As mentioned by Putri (2016:2) "Community of *K-Popers* becomes a separate phenomenon for the young sister in the middle of society." Based on her perspective, it is clear enough that many teenagers are admiring with Korean Pop or popular with the acronym *K-Popers*. And the *K-Popers* enthusiasts are in the form of a community, and in his research there is a community of five people. Besides, Putri (2016:2) states in her research study result that "Two kinds motives of community members to join the community *K-Popers* Pekanbaru such as because of a hobby and dancing". From preliminary study activities in this research, it can be concluded that 100% of students all pay attention and listen to Lee Minho's video when it is played by researchers. The conclusion is all students has been enjoyed in social tenth grade.

The biography text material has been listed in the tenth grade learning plan for social majors. According to the basic competencies in the learning plan, namely to differentiate social functions, text structure, and linguistic elements of some recount texts; Information about oral and written biography by giving and requesting information related to the actual issue, according to the context of its use (lesson plan X grade social 2020: 1). Therefore, researchers use biography material as a learning topic. According to the school problem condition above. The researcher has the intention to conduct research study which entitled **“Implementing Lee-Min Ho’s lifestyle video to improve students’ writing skills in writing Biography text at the tenth grade students of Madrasah Aliyah Negeri 3 Banyuwangi in the Academic year 2019/2020”** it is strengthened by some researchers’ thesis such as: Improving students’ vocabulary mastery by using charades. (*A classroom Action Research at second Grade of MTs Assyafi’iyah Gondang Tulungagung in the Academic Year of 2015/2016*) By Hayan Ayu Nur Cahyani. The Use of Video To Improve The students’ Speaking Skill at Class VII of SMPN 2 Patuk in the Academic Year of 2014/2015 (*Action Research Study*) By Sinta Prasetia Tria Sari, The Effect of Tutorial Video on Students’ writing of Procedure Text (*A Quasi-experimental Study at the Eighth Grade Students of MTs Negeri 13 Jakarta in the Academic Year 2017/2018*) by Meyla Azuhrah, The Use of YouTube to improve students’ ability in writing (*A Classroom action research of the tenth-grade students of SMK Negeri 1 Bawen in the academic year 2019/2020*) By Ninda Septia Zulfanita and The Effectiveness of Using Video for Teaching Procedure Text (*An Experimental Research to the*

*Eleventh Grade Students of SMA Negeri 1 Banyudono in the academic year of 2015/2016) By Rina Lestiyaning Sih.*

### **B. Formulation of The research problem**

Due to the background of the study above, the researcher formulates the research problem such as How is the implementation of Lee-Min Ho's lifestyle video able to improve students' writing skills in writing Biography text at Tenth grade students of Madrasah Aliyah Negeri 3 Banyuwangi in the academic year 2019/2020?

### **C. Scope of the study**

This research study is limited to the process of Implementing Lee-Min Ho's lifestyle video to improve students' writing skills in writing Biography text at the tenth grade students of Madrasah Aliyah Negeri 3 Banyuwangi in the Academic year 2019/2020.

### **D. The aim of the study**

This action classroom research has a purpose based on the problem research above. And the purpose is To describe the process of Implementing Lee-Min Ho's lifestyle video to improve students' writing skills in writing Biography text at Tenth grade students of Madrasah Aliyah Negeri 3 Banyuwangi in the academic year 2019/2020.

## E. Significance of the study

Here are some benefits of this research study which, expected to give input to:

### 1. The student

This result of the study gives benefits to students to improve their ability in learning Biography text.

### 2. The teacher

This result of the study gives an input to the teacher in teaching Biography text. Besides, it becomes an alternative technique to enrich each technique.

### 3. The other researchers

This research study can give literature and information for the next researchers who conducts the researcher which related to writing Biography text.

## F. The Previous studies

There are some previous studies, which related to this research study as follows

- a. Improving students' vocabulary mastery by using charades. (*A classroom Action Research at second Grade of MTs Assyafi'iyah Gondang Tulungagung in the Academic Year of 2015/2016*) By Hayan Ayu Nur Cahyani. Based on Cahyanai (2016:17). As mentioned in her result of

research study “Based on the result of this research showed that there was an improvement on students’ vocabulary mastery”

### 1. Similarities

The first Previous study has some similarities with this research study, either this research study or the first previous study used car (classroom action research) as the design of a research study. Besides, both of them used a qualitative approach include the procedure of research such as planning, acting, observing, and reflecting based on the model of Kemmis and Mc Taggart.

### 2. Differences

The first Previous study used charades as media of improvement students’ vocabulary, on the other hand, this research study implemented a video that focused more on Lee-min Ho’s lifestyle as content in the improvement of writing Biography text. However the first previous study conducted a research study involving second grade students of Mts Assyafi’iyah as population, but this research study was conducted by involving the Tenth Grade students of Madrasah Aliyah Negeri 3 Banyuwangi as population or subject of the research study.

b. The Use of Video To Improve The students’ Speaking Skill at Class VII of SMPN 2 Patuk in the Academic Year of 2014/2015 (*Action Research Study*) By Sinta Prasetia Tria Sari, the result of research study Sari, (2015:16) “The result of this research showed that using videos in the of

speaking was proved to improve the students' speaking skills in five aspects: vocabulary, pronunciation, grammar, fluency and, comprehension”

### 1. Similarities

The second Previous study has a qualitative approach as research methodology so did this research study. Furthermore, both of them implemented a video as media in teaching.

### 2. Differences

The second previous study implemented a video to improve students' speaking skill. On the other hand, this research used a video to improve writing skills, especially in Biography text.

- c. The Effect of Tutorial Video on Students' writing of Procedure Text(*A Quasi-experimental research Study at the Eighth Grade Students of MTs Negeri 13 Jakarta in the Academic Year 2017/2018*) by Meyla Azuhrah. She states in the result of research study, Azuhrah(2018:4) “ It proved that tutorial video gave moderate effect and it can be concluded that there was a significant effect of tutorial video on students' writing of procedure text”

### 1. Similarities

The third Previous study used video as media for teaching so did this research. Besides, both of them did an improvement in students' writing skills.

## 2. Differences

In contradiction, The third Previous study implemented a tutorial video as content in writing procedure text but this research used Lee-Meen Ho's lifestyle video as content in writing Biography text. Meanwhile, the third previous study used quantitative as an approach but this research used qualitative as approach. This research involved students at The Eleventh Grade In Senior High School. On the other hand, the third Previous study involved The Eighth Grade Students of Mts Negeri 13 Jakarta.

d. The Use of YouTube to improve students' ability in writing (*A Classroom action research of the tenth-grade students of SMK Negeri 1 Bawen in the academic year 2019/2020*) By Ninda Septia Zulfanita. The result of the research study by Zulfanita (2019:4). "From the result, the researcher concluded that using Youtube can improve the eleventh-grade students' ability in writing at SMK Negeri 1 Bawen"

## 1. Similarities

The fourth research study conducted an improvement in students' writing skills. Besides this research did an improvement in writing. In addition, either this research study or the fourth previous study used a qualitative as an approach.

## 2. Differences

The fourth Previous study was conducted by using Youtube in teaching students at Eleventh Grade Students of Smk Negeri 1 Bawen. Moreover, this research study implemented a video to improve students' skills in writing Biography text at the Tenth Grade Students of Madrasah Aliyah Negeri 3 Banyuwangi.

e. The Effectiveness of Using Video for Teaching Procedure Text (*An Experimental Research to the Eleventh Grade Students of SMA Negeri 1 Banyudono in the academic year of 2015/2016*) By Rina Lestiyaningih. Based on Lestiyaningih's abstract "based explanation above the researcher concludes that using video is effective to teach procedure text writing." (Lestiyaningih, 2017:7).

## 1. Similarities

This research study and the fifth Previous study conducted an improvement in students' ability in writing skills. furthermore, a video was used not only in this research study but also the fifth Previous study

## 2. Differences

The fifth Previous study conducted experimental research in teaching writing procedure text, moreover, this research study conducted classroom action research in writing Biography text.

## **G. Definition of key terms**

## **CHAPTER II**

### **REVIEW OF RELATED LITERATURE**

This chapter shows a Review of the theoretical background such as: Writing, Biography text, and Lee-Min Ho's lifestyle video.

#### **A. Writing**

##### **1. Definition of Writing**

There are many definitions of writing. Based on Asiti (2012:7) Writing is one work which can be used to develop an opinion and idea become words in sentences. It is supported by Lestiyaninggih (2017:8) "Writing is the process of thinking about how to express in good writing and arrange the ideas into statement and paragraph clearly", According to the statement above, our thought and idea can be realized correct writing by creating sentences in a paragraph. Furthermore, Zulfanita (2019:14) States that everyone can create writing text because writing is considered as productive skill. Besides, among four skills in English, writing is one of skill which is used for students to learn the language more accurately (Ahzuhra, 6:2018), It means that when students create a writing, all the components in writing is developed by students too. Moreover, as mentioned by Sholihah (2010:5) in thesis of Mulyani, Tavriyanti, and Septy, Writing is a tool to communicate among the writer and the reader in line with that concept. Everyone can communicate indirectly by using writing text. In this result, they can share what they think and feel by writing. Furthermore, it is read by someone else.

The conclusion is writing is a skill that is used to communicate indirectly with the reader by involving all knowledge aspects such as grammar, an idea, and other components that are created in the correct sentences.

## 2. Purpose of Writing

There so many Aims of writing, According to Ahzuhra (2018:8) as mentions in her thesis, there are several purposes in writing such as:

### a. Persuasive purpose

This aim is to convince the reader with the writer's idea by adding the evidence from the writer. In this result, the reader will be persuaded.

### b. Analytical purpose

This Aim is to give information to the reader about a topic related to the investigation of causality, evaluation of effectiveness, and access to solve a problem. Furthermore, the example of writing can be found in an analysis paper and critical analyses.

### c. Informative purpose

This aim is to present an answer which related that topic of the reader question, as can as possible. Moreover, as a reader can get new knowledge by comprehending that writing

### 3. Process of Writing

According to Zulfanita (2019:17), there are four steps which can be applied in writing

#### a. Planning

At this stage, the writer can provide ideas to generate in their writing.

#### b. Drafting

At this stage, the idea which has created is ready to be started. It does not get to create writing, because it is still needed to be stronger and more advanced.

#### c. Revising

In this stage, after the drafting, the writers can assess their writing. In result, they can present their writing more appropriately

#### d. Final draft

In this stage, the writer should consider the correctness of punctuation, spelling, grammar in their writing.

### 4. Teaching of Writing

By teaching writing, it makes students can be able to creative and innovative based on their ideas and thought. it is supported by Raimes (2010:18) Mulyani, Tavriyanti and, Primasepti study “Teaching writing is a process that makes the student learn to do something”. Whereas Teaching is not easy to do, many kinds of element of writing, which the writers need to be understandable, it is strengthened by Racmah (2011:15) “Teaching writing is a complex process, a teacher should consider the communication competencies” furthermore, as English teacher, they should understand what the components

of teaching are: the first, as the teacher must be able to have competence in grammatical in. Besides they can be mastered in linguistics components such as: morphology, syntax, semantic Pragmaticetc. Here are some competencies which teachers must have:

a. Competence of grammatical

The teacher must be mastering many vocabularies in the structural sentences, and they have to know what the aspects of linguistic are.

b. Competence of Sociolinguistic

The appropriateness of language and the correct grammatical form must be applied in different sociolinguistic contexts.

c. Competence of discourse

The Teacher must be comprehensive not only in sociolinguistic but also discourse, the knowledge also needs to combine in all their competences. Moreover, there some elements which must be known by all teachers as follows: topic sentence, paragraph unity transition and, etc.

d. Competence of strategic

Strategy competence is also recognized as communicative competence in teaching classrooms with that competence as teachers can measure which one the most effective strategy in teaching.

## 5. Micro and Macro skills in Teaching writing

Brown argues that “Following the format from the previous three chapters, micro-and macro skills for writing production are enumerated

**Table 2.1**  
**Micro and Macro skills for writing**

<p><b>Micro skills</b></p> <ol style="list-style-type: none"> <li>1. Produce graphemes and orthographic patterns of English.</li> <li>2. Produce writing at an efficient rate of speed to suit the purpose.</li> <li>3. Produce an acceptable core of words and use appropriate word order patterns.</li> <li>4. Use acceptable grammatical systems (e.g., tenses, agreement, pluralization), patterns, and rules.</li> <li>5. Express a particular meaning in different grammatical forms</li> </ol> <p><b>Macro skills</b></p> <ol style="list-style-type: none"> <li>6. Use cohesive devices in written discourse.</li> <li>7. Use the rhetorical forms and conventions of written discourse.</li> <li>8. Appropriately accomplish the communicative functions of written texts according to forms and purpose.</li> <li>9. Convey links and connections between events and communicate such relations as main idea, supporting idea, new information, given information, generalization, and exemplification.</li> <li>10. Distinguish between literal and implied meanings when writing.</li> <li>11. Correctly convey culturally specific references in the context of the written text.</li> <li>12. Develop and use a battery of writing strategies, such as accurately assessing the audience’s interpretation, using prewriting devices, writing with fluency in the first draft, using paraphrases and synonyms, soliciting peer and instructor feedback, and using feedback for revising and editing.</li> </ol>

## 6. Types of classroom writing performance

Brown (2017:399), presents some five major categories of types of classroom writing performance such as:

### a. Imitative, or writing down

The basic learner can write down English letters, words, and sentences by serving the teacher's dictation. The dictation serves not only for the student at the beginning level but also test higher-order processing as well.

### b. Intensive, or controlled

Writing always involves grammar as an aspect in writing paragraphs, so intensive or controlled usually appears on the detailed grammar of writing. For example: students change the simple present tense to simple past tenses in a paragraph. Furthermore, teachers can guide them in applying grammar in their writing.

### c. Self-writing.

The beneficial part of classroom writing can be immortalized to self-writing. Students can make notes based on the teacher's lecturing and then, they can create a summary based on their mind as an audience.

There is an example of writing-self as follows: journal, diary, etc.

d. Display writing

Display writing consists of all the languages of students such as: short-answer exercises, essay examinations, and even research reports involves a display. Especially for students, they need to learn about the technique of displaying.

e. Real writing.

Besides displaying writing, real writing can also appear in writing teaching. There are combinations between displaying writing and real writing as follows Academic writing (Group problem-solving tasks), vocational/technical (students studying English for advancement in their occupation) and Personal (diaries, letters, postcard, notes, and personal messages).

## 7. Principles for teaching writing skills.

As teacher should have some principles for their teaching in writing skill such as:

a. Incorporate practices “good” writers

To create good writing the teacher must consider the technique in achieving good writing.

b. Balance process and product.

To create writing, it is needed a process based on the appropriate stage. Furthermore, a student needs to create multiple drafts before an effective product created, in short, it must be worth the effort in this final creation

c. Account for cultural/literary backgrounds.

Do not think that students understand the rhetorical conventions of English. if few students are contradicted in their native tradition and those, the teacher must teach and try to help them to understand what it is.

d. Connect reading and writing.

Students learn to write after they have read, something which, already written, it helps students to get new reference which related to their topic of the writing.

e. Provide as much authentic as possible.

The authentic is provided in whether real writing or display writing, and the purposes of them are to present meaning. And it can be added by the student to other students. Example: Publishing a class news, letter, writing a letter to people outside of the class and, writing a script for a skit or dramatic presentation.

f. Frame your technique in terms of prewriting, drafting, and revising stages. There are three stages of writing which, can be framed by process writing approaches such as: the prewriting stage, the drafting, and revising stages.

## 8. Assessment of writing

To find out students' progress as a teacher can conduct an assessment, besides assessment also can use to evaluate the teacher strategy is effective or not. Based on Brown (2017:412) "If you are a guide and facilitator of students' performance in the ongoing process of developing a piece of written work, how

can you also be the judge? What do you judge?" According to that concept, there are techniques to determine the students' progress in developing their writing and it is called as Scoring rubric

#### 9. Evaluation Checklists in writing

Based on Brown (2017:413) one of the methods to examine students' writing is by using the Rating checklist. It can indicate students' strengths and weaknesses. Brown (2017:413) states that "Table 21.2 is a typical list of general categories, that are often the basis for the evaluation of student writing.

**Table 2.2.**

**Categories for evaluating writing**

<b>Content</b>	<b>Organization</b>	<b>Discourse</b>	<b>Syntax</b>	<b>Vocabulary</b>	<b>Mechanics</b>
Thesis statement	effectiveness of introduction	Topic sentences			Spelling
Related ideas	logical sequence of ideas	Paragraph unity			Punctuation
Use of description, cause/effect, comparison/contrast	Appropriate length	Discourse Markers			Neatness and appearance
		Rhetorical Conventions			
		Reference			
		Fluency			
		Economy			
		Variation			

(Adapted from H. Douglas Brown 413, 2017 )

Besides, to evaluate students also need a scoring rubric to get feedback from students' writing, according to Brown (2017:414) there are six categories. And each score has different categories. then, it helps the teacher to analyze and focus on the specific student's problem. Furthermore, the teacher can give special attention to them. In afterward to get successful teaching-learning activity it needs to prove by understanding students' scores, in this result the teacher can give them a comment. Based on Brown (2017:414) "The six-category list in table 2.3. can serve as the basis for such evaluations"

**Table 2.3  
Score rubric**

**Picture 2.1. Lee-Min Ho's photo**

## 2. Video

Video can provoke students more intentionally in writing, as mentioned by Sari ( 2015:31) video is one multimedia which shows a picture include Narration. So video is a visual tool that can present some displays, either verbal or nonverbal presentations. Besides, video produces not only visual but also audio. Besides, by video students can watch and listen to something. Furthermore, videos can give significants for students, they can use video as their media to get an idea and the text on a screen. It is supported by Canny (2000:25) in Mulyani, Tkuryanti and, Primasepti study, Video is digital media which has benefited to enhance students' writing skills. Afterwards, video can be utilized by the student to create a writing, Besides, Based on Prasetya and Komarudin, (2017:28) "A video is a small section of larger video presentation A series of video frames are run in succession to produce a short video". While this research study implements Lee-Min Ho's lifestyle video to improve students' writing skills in writing Biography text, according to definitions of

video and Lee-Min Ho's Lifestyle above, the researcher can conclude that Lee-Min Ho's Lifestyle video is a video which presents a piece of information in narrative related to Lee-Min Ho's Lifestyle.

**Picture 2.2. Lee-Min Ho's lifestyle video**

According to Zuhra (2018:14-15) when the teacher conducts a video as their media, it gives not only advantages but also disadvantages for students.

a. The advantage of using video

There few advantages by implementing video in teaching-learning activities, as follows :

1. To see language in-use

Students get not only audio and visual on video but also knowledge which related to linguistic. As a result, they can learn of elements of English more intensively from a video.

## 2. Cross-cultural awareness

various videos can take students' attention to know the culture of the situation in other countries. So they can understand and become new information for them.

## 3. The power of creation

In nowadays, students can create a video by their camera, students can be a director of their camera itself. Then, they can create content which enjoyable and creative.

## 4. Motivation

According to those advantages above, students can improve their ability more deeply and interesting by using video as a media in language learning.

### b. The disadvantage of using video.

As teacher should aware that video has disadvantages for students, Here are some disadvantages of using videos:

#### 1. The nothing syndrome

When the teacher presents a video in the classroom, they can provide video which varieties, as can as possible, because just turn on video on the monitor, can make teaching-learning becomes less interesting.

## 2. The Length of extracts

Teachers should be conscious of the length of video duration. Many people have the idea that the over-long of duration can be bringing students to be sleep or doze.

## **CHAPTER III**

### **RESEARCH METHODOLOGY**

This chapter discusses the setting of research, Research design, instrument of the study, Technique of data collection, and Technique of Data Analysis.

#### **A. Subject and Setting**

1. The profile of English teacher of students tenth grade social departement 4  
Madrasah Aliyah Negeri 3 Banyuwangi

Mrs. Sulastri Prambahan S.Pd, was born on September 23<sup>rd</sup> 1969. Her hometown is Manado but she lives in Banyuwangi regency, East java Province, Indonesia right now. She is The English teacher of students of social 4. Besides, she is being a homeroom teacher in XII MIPA.

2. The profile of students of the tenth-grade social departement

Students of the tenth-grade social departement is involved as a population in this research study. There are eight male students and twenty five females student which the total is thirty three.

3. Length and time of the study

This research study is conducted from preliminary study I until the cycle II is around 31 days. There is a schedule of research study as follows

**Table 3.1.**  
**Time of research study**

NUM	ACTIVITY	DATE	MONTH	YEAR
1	Preliminary study (reconnaissance)	24 <sup>th</sup>	October	2019
2	The cycle I	1 <sup>st</sup> meeting	31 <sup>st</sup>	October 2019
		2 <sup>nd</sup> meeting	7 <sup>th</sup>	November 2019
3	The cycle II	1 <sup>st</sup> meeting	14 <sup>th</sup>	November 2019
		2 <sup>nd</sup> meeting	21 <sup>st</sup>	November 2019

## B. Research Design

This research uses CAR (Classroom Action Research) as research design by using a qualitative approach. Classroom Action Research is one of the research which brings a change in teaching-learning developments, As mentioned by Cahyani (30: 2016). It is also supported by Sari (49: 2015), she mentions that “Action research carried out by a team that encompasses professional action researcher and the member of an organization, community the participant situation” Istiqomah (2018:6) argues that class action research is an investigation which conducted by the researcher, and it can be conducted in any circles it may be school, counselor or other environments. Besides, according to Stringer (2017:1). Classroom Action Research an investigation of a systematic approach that uses to find effectiveness and solution to solve the problem in their situation. Stringer states that there is a basic action research routine as follows:

**Table 3.2**  
**Basic action research routine**

<b>Look</b> <ul style="list-style-type: none"> <li>• Gather relevant information</li> <li>• Build a picture: Describe the situation (define and describe)</li> </ul>
<b>Think</b> <ul style="list-style-type: none"> <li>• Explore and analyze: what is happening here? (Analyze)</li> <li>• Interpret and explain: How/why are things as they are (theorize)</li> </ul>
<b>Act</b> <ul style="list-style-type: none"> <li>• Plan (report)</li> <li>• Implement</li> </ul>

**Adapted from Stringer (2017:1)**

### 1. Classroom Action Research principles

There are several Classroom Action Research principles according to Purrohman (2011:6) as follows:

- a. Classroom Action Research never annoy the teacher activity when they conduct an instruction process. Whereas, the Classroom Action Research try to develop the teacher's professional teacher character can be more effective.
- b. Classroom Action Research makes the researcher to spend their short time to gather data. Besides, the researcher must be accurate in the arrangement because Classroom Action Research uses an appropriate method including initial collection data before the research began.
- c. The appropriate and reliable methods must be used in the Classroom Action Research, in this line a teacher has chances to create a formulation of action.

## 2. Characteristic of Classroom Action Research

There are some characteristics of Classroom Action Research according to Purrohman (2011:6) which viewed based on Santaya (2007) and Winter (1996) Kemmis and Taggar, the researcher summarizes as follows:

- a. Classroom Action Research has an intention to solve a problem that happens in the classroom, and it is supported by scientific procedures. Moreover, the teacher as the researcher can be closer to the student so they can be easier to find out the problem of students.
- b. Classroom Action Research must be conducted focus because, Classroom action research needs a plan, a performance and, evaluation to find out the effectiveness of problem-solving.
- c. Classroom Action Research has a significant for teachers, they can develop their effort by using their critical thinking and it can produce new knowledge for them and the other researchers.

## 3. Objective of Classroom Action Research

There are some main objects of Classroom Action Research according to Purrohman (2011:6) as follows:

- a. Classroom Action Research has a purpose to increase and upgrade teachers' professional services in the teaching-learning process
- b. Classroom Action Research has the purpose to develop teacher skills in solving the problem to the learning-teaching process.

c. Classroom Action Research has a purpose to grow up the millennial teacher in the teacher's community.

#### 4. The benefit of Classroom Action Research

Classroom Action Research has some benefits as follows

a. Classroom Action Research gives an advantage as innovation of education which develops from that start because teachers are recognized as an educational practice

b. The outcome of the Classroom Action Research can be used as output in curriculum development

c. Classroom Action Research develop teacher's skill as professionalism of teacher.

#### 5. Procedure of Classroom Action Research

There are some stages of Classroom Action Research such as

##### a. Planning

Planning is an engaged process of idea and an appraise to reflect an occurrence that has been occurring attempted to know a manner to solve the problem encountered.

b. Implementing

Implementing or acting, in this step the researcher thinks and mulls what the action was finished, how the method going to be implemented, and what the appropriate material will be prepared

c. Observing

Several activities which consist of collecting data to find out the outcome of the action. Gathering data can be considered by students and teachers.

d. Reflecting

Reflecting is an activity to examine a probity data and interpret the data for carrying out the betterment or advancement to include revision in the next heighten the success of teaching.

### **C. Procedure of the study**

This research study uses a procedure based on Kemmis and McTaggart model (1988) as quoted by Sari (2015:56). There are four steps according to Kemmis and Mc Taggrat such as Planning, acting, observing, and reflecting. And the cycle is made at least in two cycles.

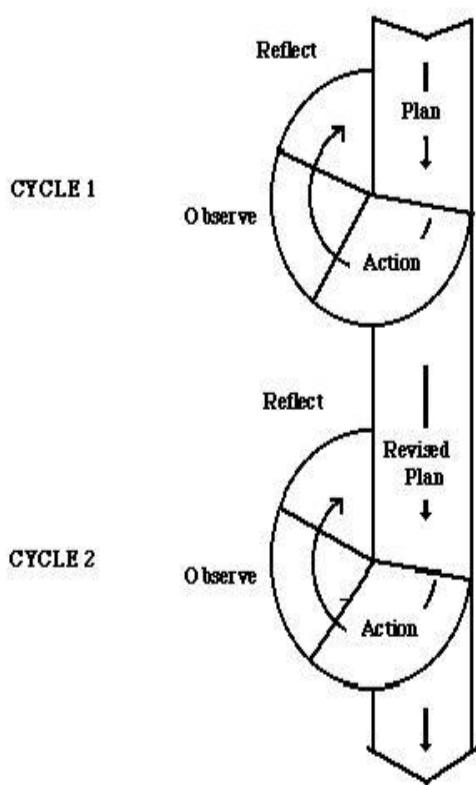

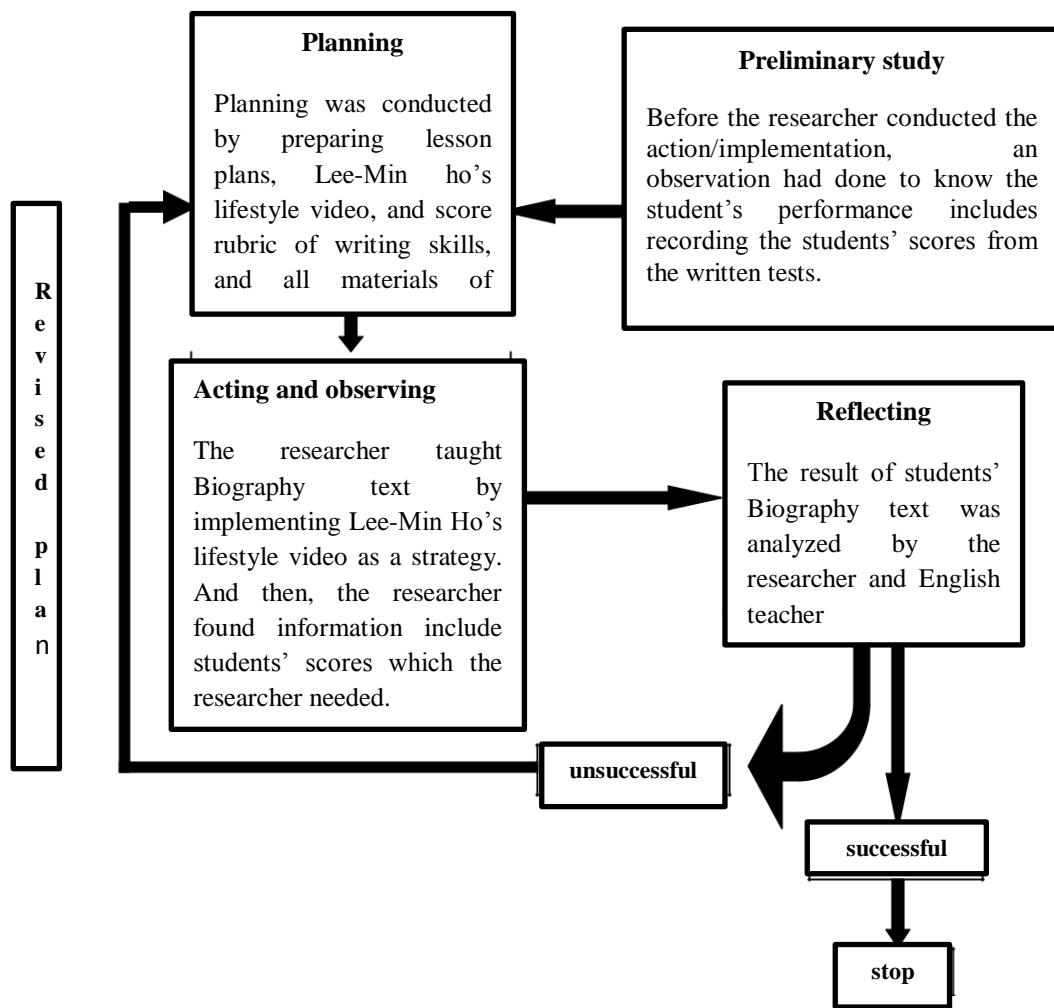

Figure 3.1. The Action Research Model based on Kemmis and McTaggart (1988)

Before the researcher applied those steps, the researcher has done to identify the student's problem in writing Biography text in the preliminary study. Besides, the researcher uses the concept of Kemmis and Mc Taggart as procedure of research as bellow

**Figure 3.2. The Action Research Model based on Kemmis and McTaggart (1988) on (Cahyani 2016:35)**

## **1. Reconnaissance**

Before the researcher conducts the action, the researcher has conducted an observation to know all conditions and situations in the learning activity, furthermore, all information related to students' activity in writing Biography text is identified by the researcher. And then, after the interview and an observation is done by the researcher, the researcher finds that students still have a problem and a weakness related to writing a Biography text.

## **2. The cycle I**

The first cycle is conducted on 31<sup>st</sup> October and 7<sup>th</sup> November 2019 by some steps, as follows

### a. Planning

The researcher plans to choose an appropriate action to be implemented while collaborating with the teacher. Besides, In this step, the researcher prepares all necessities which are needed in the research process such as:

#### 1. Provide a lesson plans

The one of a requirement that the researcher need is lesson plans which consists of the standard of competence, basic competence, indicators, objectives, teaching method, teaching procedures, learning sources, and assessment procedure. and It is presented in **the appendix**

## 2. Provide a material of teaching

The material of Biography text is presented include all aspects in that needed and It is Presented in **the appendix**

## 3. Provide an instructional strategy

Lee-Min Ho's lifestyle video is prepared as a strategy in teaching writing in Biography text.

## 4. Provide students test

Provide students test sheets to carry out the test include the scoring rubrics which is adapted from Brown, and It was presented in **the appendix**

## 5. Provide the material

Because the topic is the Biography text, the researcher provides an essay test, and it is given by the researcher to every student, and It is presented in **the appendix**

## 6. Prepare criteria of success

There is 73 for the criteria of success, so the goal of this research is to improve students' score more than 73 which is as the score of criteria success (SKM)

### b. Implementing (Acting)

In this step, the researcher carries out the action-based plan which is made. Afterword, the researcher implements Lee-Min Ho's lifestyle video as the strategy to improve students' writing skills in writing Biography text. And some activities are done by the researcher all at once as the teacher role, such as

1. The teacher greets students and it is continued by checking their attending list.
2. The teacher introduces what the topic is going to be learned.
3. The teacher explains Biography text includes the definition, generic structure, and grammatical aspect in Biography text
4. The teacher asks students to ask the difficulties Biography text.
5. The teacher presents a video of Lee-Min Ho's lifestyle to be a media in teaching and learning Biography text.
6. The teacher gives an essay test to measure how much the students progress is

### c. Observing

In this step, the researcher's role as the teacher. The researcher and the teacher observes all happens during in the teaching-learning in the classroom. The researcher uses observation guide to know the outcome of objective research, there are several stages such as

1. The English teacher observes the student's interest in the classroom during the process of teaching-learning.
  2. The English teacher observes the activeness of students.
  3. The English teacher monitors all works which were done by an individual student.
  4. The English teacher observes students' capability in the mastering of using vocabulary in writing Biography text.
  5. The English teacher observes students' capability in the mastering of using an idea in writing Biography text.
  6. The English teacher observes students' capability in the mastering of the organization of paragraphs in writing Biography text.
- g. The English teacher observes the participation of students in writing Biography text.

Besides, the activity and a condition that occurs during the classroom is written and analyzed. In the result, the data may be useful for the next researches.

d. Reflecting

In this step, the researcher and the teacher make the reflection based on the implementation which has been done in the cycle I, there are reflections which are done by the researcher as such as

1. The data of the test is taken by the researcher from in the first cycle
2. The activity that is done is evaluated by the observer
3. The researcher makes the solving which can overcome problems that appears in the cycle I
4. The data of the cycle I is analyzed by the researcher
5. The researcher concludes for Classroom Action Research in the cycle I.  
Whether, the action is successful or not success, the action is revised in the next the cycle to solve students' problems in writing Biography text

### **3. The cycle II**

While, the second cycle is conducted on 14<sup>th</sup> and 2<sup>st</sup> November by several revised steps such as:

- a. The Revised plan

There are several activities in the revised plan in the second Cycle, as bellow:

1. The researcher identifies the problem and make the solution or problem solving related to the problem that appeared in the cycle I.
2. The researcher provides the second video about Lee-Min Ho's lifestyle video which downloaded from Youtube.
3. The researcher provides students test sheets to carry out the test in the cycle II.

b. Revised plan for implementing

In this stage, the researcher's role as a teacher, and he treats them more intensively. Furthermore, the researcher carries out the action-based plan which is made. Afterword, the researcher implementes the second Lee-Min Ho's lifestyle video and some activities are done by the researcher in the cycle II, such as

1. The teacher greets students and it is continued by checking their attending list.
2. The teacher introduces what the topic is going to be learned.
3. The teacher explains Biography text includes the definition, generic structure, and grammatical aspect in the Biography text.
5. The teacher asks students to ask the difficulties about Biography text
4. The teacher presents the second video of Lee-Min Ho's lifestyle to be a media in teaching and learning in Biography text In the cycle II
6. The teacher gives an essay test in the cycle II

c. Revised plan for observing

The researcher does some activities in Revised plan for observing as follows:

1. The English teacher observes the student's interest in the classroom during the process of teaching-learning.
2. The English teacher observes the activeness of students.
3. The English teacher monitors all works which will have been done by an individual student.
4. The English teacher observed students' capability in the mastering of using vocabulary in writing Biography text.
5. The English teacher observes students' capability in the mastering of using an idea in writing Biography text.
6. The English teacher observes students' capability in the mastering of the organization of paragraphs in writing Biography text.
7. The English teacher observes the participation of students in writing Biography text.

d. Revised plan for reflecting

In the cycle II, the researcher analyzes the revised plan for reflecting as follows:

1. The activity which has been finished is evaluated by the researcher.
2. The data from the test in the cycle II is analyzed by the researcher
3. The problems which happens in implementing activity is analyzes by the researcher.
4. The researcher analyzes the data from the observation sheet and students' score of the test in the cycle II.

1. Northside : Paddy land

2. SouthSide : Village Road

3. Westside : Paddy land

4. Eastside : Paddy land

##### **2. At a glance Madrasah 3 Negeri Banyuwangi, Srono**

Building for study rooms and offices on the land mentioned above. The first building in the Srono State Aliyah Madrasah Semula was from a faraway class (filial) from MAN Banyuwangi located in the village of Parijatah, Srono

District. Because in Parijatah the development seems relatively slow due to its less strategic location, the MAN Filial Parijatah was moved to the city of Srono, with status as a distant class, with the name Madrasah Aliyah Banyuwangi Filial Srono State. study room and 1 office room. It turns out that from year to year this filial madrasah has experienced a pretty good development, as seen from the development of the number of students and the quality of graduates who are getting better. Even in 1989 he was able to conquer the construction of a 5440 m<sup>2</sup> building. The doubling of this land is the result of collaboration between Madrasas and the Education Administration Support Agency (BP3) and the students' parents. In 1991 the building began to consist of 3 study rooms, 2 office space (terraced) and 2 bathrooms

### 3. The organization structure of Madrasah Aliyah Negeri 3 Banyuwangi

The organizational structure of the Banyuwangi 3 Madrasah 3 basically refers to the Decree of the Minister of Religion and the Decree of the Head of the 3 Madrasah Negeri Banyuwangi. For complete organizational structure as follows:

According to the table of students' scores in observation above, Therefore 33-student joined the test. Besides their score was analyzed by using score rubric, while the standard criteria score (SKM) was 73. Moreover, there were 57.5 % of students were not successful in writing Biography text. And 42.4 % of students were success.

Besides, the interview was conducted on 24<sup>th</sup> Oktober 2019 to complete the field problem. And the interview was transferred to be interview transcript. According to data from the interview, it can be known that. Students were very interested to learn English. Moreover, they think English was not easy enough. Furthermore, as mentioned by the informant, if they don't learn English, it will be more complex. In addition, students also still faced the problem related to vocabularies. As she mentioned in the interview, she said that she still lacked vocabulary when teaching-learning was conducted.

According to informant "In our class, the teacher always gives assignments to do a task related to writing (writing) such as preaching every day, making biographies, etc." Besides, the English teacher's teaching used some media such as a dictionary and the internet. Besides, the teacher usually used the book in the library as media.

Based on the informant's opinion, the teacher should use modern media for teaching and learning in the classroom, such as movies and other media that made students were more fun. In the result, the students can understand the teacher's explanation.

## I. Penilaian Hasil Pembelajaran

## 1. Sikap

### - Penilaian Observasi

Penilaian observasi berdasarkan pengamatan sikap dan perilaku peserta didik sehari-hari, baik terkait dalam proses pembelajaran maupun

No	Nama Siswa	Aspek Perilaku yang Dinilai				Jumlah Skor	Skor Sikap	Kode Nilai
		BS	JJ	TJ	DS			
1	Soedarmono	75	75	50	75	275	68,75	C
2		...	...	...	...	...	...	...

secara umum. Pengamatan langsung dilakukan oleh guru. Berikut contoh instrumen penilaian sikap

### Keterangan :

- BS : Bekerja Sama
- JJ : Jujur
- TJ : Tanggun Jawab
- DS : Disiplin

### Catatan :

1. Aspek perilaku dinilai dengan kriteria:

100 = Sangat Baik

75 = Baik

50 = Cukup

25 = Kurang

2. Skor maksimal = jumlah sikap yang dinilai dikalikan jumlah kriteria  
=  $100 \times 4 = 400$

3. Skor sikap = jumlah skor dibagi jumlah sikap yang dinilai =  $275 : 4 = 68,75$

4. Kode nilai / predikat :

75,01 – 100,00 = Sangat Baik (SB)

50,01 – 75,00 = Baik (B)

25,01 – 50,00 = Cukup (C)

00,00 – 25,00 = Kurang (K)

5. Format di atas dapat diubah sesuai dengan aspek perilaku yang ingin dinilai

### - Penilaian Diri

Seiring dengan bergesernya pusat pembelajaran dari guru kepada peserta didik, maka peserta didik diberikan kesempatan untuk menilai kemampuan dirinya sendiri. Namun agar penilaian tetap bersifat objektif, maka guru hendaknya menjelaskan terlebih dahulu tujuan dari penilaian diri ini, menentukan kompetensi yang akan dinilai, kemudian menentukan kriteria penilaian yang akan digunakan, dan merumuskan format penilaianya. Jadi, singkatnya format penilaianya disiapkan oleh guru terlebih dahulu. Berikut Contoh format penilaian :

No	Pernyataan	Ya	Tidak	Jumlah Skor	Skor Sikap	Kode Nilai
1	Selama diskusi, saya ikut serta mengusulkan ide/gagasan.	50				
2	Ketika kami berdiskusi, setiap anggota mendapatkan kesempatan untuk berbicara.		50	250	62,50	C
3	Saya ikut serta dalam membuat kesimpulan hasil diskusi kelompok.	50				
4	...	100				

Catatan :

1. Skor penilaian Ya = 100 dan Tidak = 50
2. Skor maksimal = jumlah pernyataan dikalikan jumlah kriteria =  $4 \times 100 = 400$
3. Skor sikap = (jumlah skor dibagi skor maksimal dikali 100) =  $(250 : 400) \times 100 = 62,50$
4. Kode nilai / predikat :
 

75,01 – 100,00	= Sangat Baik (SB)
50,01 – 75,00	= Baik (B)
25,01 – 50,00	= Cukup (C)
00,00 – 25,00	= Kurang (K)
5. Format di atas dapat juga digunakan untuk menilai kompetensi pengetahuan dan keterampilan

- **Penilaian Teman Sebaya**

Penilaian ini dilakukan dengan meminta peserta didik untuk menilai temannya sendiri. Sama halnya dengan penilaian hendaknya guru telah menjelaskan maksud dan tujuan penilaian, membuat kriteria penilaian, dan juga menentukan format penilaianya. Berikut Contoh format penilaian teman sebaya :

Nama yang diamati : ...  
 Pengamat : ...

No	Pernyataan	Ya	Tidak	Jumlah Skor	Skor Sikap	Kode Nilai
1	Mau menerima pendapat teman.	100				
2	Memberikan solusi terhadap permasalahan.	100		450	90,00	SB
3	Memaksakan pendapat sendiri kepada anggota		100			

	kelompok.					
4	Marah saat diberi kritik.	100				
5	...		50			

**Catatan :**

1. Skor penilaian Ya = 100 dan Tidak = 50 untuk pernyataan yang positif, sedangkan untuk pernyataan yang negatif, Ya = 50 dan Tidak = 100
2. Skor maksimal = jumlah pernyataan dikalikan jumlah kriteria =  $5 \times 100 = 500$
3. Skor sikap = (jumlah skor dibagi skor maksimal dikali 100) =  $(450 : 500) \times 100 = 90,00$
4. Kode nilai / predikat :
 

75,01 – 100,00	= Sangat Baik (SB)
50,01 – 75,00	= Baik (B)
25,01 – 50,00	= Cukup (C)
00,00 – 25,00	= Kurang (K)

CHAPTER I INTRODUCTION This chapter presents an Introduction such as: The Background of the study, The Formulation of the research problem, The scope of the study, The purpose of the study, The Significance of the study, The previous study, and the concept of study. A. Background of study Language has a big role in our daily life. All people apply a language to explore their ideas, express their thought and share their opinion.

Nowadays the English language becomes the global language which considered as a foreign language in Indonesia. Besides, The English language has significant in some aspects, such as: to get an education access in overseas countries, to have an international business, and to join in politics (Asiti, 2012:1). Furthermore, The existence of the English language is considered in Indonesia education.

According to Sari (2015: 1), English major becomes a compulsory major in English teaching-learning at school. Besides, as mentioned curriculum 2013, English teaching-learning is implemented at survival level till university. The English language consists of several skills such as: Listening, Speaking, Reading, and Writing.

From those skills, writing skill is very important and useful for everyone in the world, According to Hayati (2017:10) "If you want to write, it is as simple as that. Writing is a skill, like driving or word processing that you can master with hard work. If you believe this, you are ready to learn how to become a component writer".

Allah SWT said that in Al Qur'an in Al Alaq Verse 4-5 ?????????? ??????? ?????????? (?) ?????? ?????????? ?????? ?????? (?) The meaning is: "Who was taught (the writing) by the pen. He has taught man that which he knows not" (Q.S
